Pollinator Forage Program Application

Name		Date	<p><i>Please check one</i></p> <p>Town or homestead plot <input type="checkbox"/></p> <p>Farm plot <input type="checkbox"/></p> <p>Phone <input style="width: 100%;" type="text"/></p> <p>or</p> <p>Nearest Intersection to project <input style="width: 100%;" type="text"/></p>
Address			
City, state, Zip			
E-mail			
Farm#	Tract#		

The program is open to all Spencer County landowners.
 Cost Share Practice Offered:

Pollinator Plots: a payment of 75% of the actual cost, not to exceed \$500 per project.

Cost share will be approved for seed, equipment and labor.

Each approved applicant will receive a NRCS seed mix specification sheet to ensure they meet the NRCS requirements (if the soil type is suitable, mix will contain Swamp Milkweed seed for Monarch migration). There are seed mixes recommended based on soil type.

Information will be provided on how to prepare the soil/ plant the seed and someone will visit site to help with selecting the correct seed mixture.

The site will need to be prepared before planting and it will need to be planted April 1 through June 15 or December 1 through February 28. The land owner can broadcast (frost seed) or drill the seed.

Spring projects must be completed and **bills submitted** for payment by **July 15** and **winter projects by April 15**. After these dates bills will not be accepted or paid by the Spencer County Soil & Water Conservation District.

By signing this form, I agree to the attached program guidelines and understand the terms and conditions of the agreement.
